WELCOME

Dear Sisters and Brothers, Dear Colleagues,

on behalf of the Board of FEAMC, and on behalf of the international and local organising teams, I am pleased and honoured to welcome you cordially to the jubilee 10th Congress of FEAMC.

The challenges of contemporary confrontations between the 'Culture of Life' and 'Culture of Death' (*Evangelium vitae*, 28) are faced nowadays by individuals, families, communities, states, and many distinguished international organisations in Europe, and all over the World. Nowadays, a particular field of this struggle lies within contemporary medicine and health care. The Catholic Church, faithful to Her mission and service to all peoples, has been paying a deep and continuous attention to these pressing issues since their very beginning, roughly a century ago.

Professing, announcing, and living the 'Gospel of Life' in contemporary World surely belongs to the Church's major tasks within the 'New Evangelisation' in Europe and beyond at the beginning of the third Millennium. Listening attentively to the inspiration of the Holy Spirit, as well as to the needs and quandaries posed by unprecedented developments in medicine, life sciences and modern biotechnologies, and their impact on contemporary man and the human societies all around the Globe, should help the Church and the catholic physicians in keeping abreast with the current and prospective moral problems arising abundantly in this volatile area. The 'Ethics of Life' offers a solid, enlightening, and hopeful basis for such 'human civilisation-saving' scientific, educational, pastoral and even political efforts of today and tomorrow.

We hope and pray for a high quality, stimulative, thought-provoking and perspectives-presenting congress. It should offer abundant possibilities of informal discussions, sharing of personal opinion and experience, as well as for contact building and networking of experts and all people of good will engaged in medicine, health care, bioethics and biopolitics in Europe and beyond.

The meeting in Bratislava, the 'Beautiful city on Danube' (Istropolis), should help us all to find and understand better the 'signs of our times' and 'lights of hope' for the years, and possibly decades to come.

Prof. Josef Marek, M.D., DSc.
President of FEAMC

Prague, June 2004

FINAL PROGRAM OVERVIEW

June 30 – Wednesday

16:00-20:00 Registration (Centre „Quo vadis“, Hurbanovo square 1)

July 1 – Thursday

Congress Web Page	Please, visit the congress web page at www.feamc2004.info for all updated congress information.

PRAYER OF THE CATHOLIC DOCTOR

Lord Jesus,

Divine Physician, who in your earthly life showed special concern for those who suffer and entrusted to your disciples the ministry of healing, make us ever ready to alleviate the trials of our brethren. Make each one of us, aware of the great mission that is entrusted to him, strive always to be, in the performance of daily service, an instrument of your merciful love. Enlighten our minds, guide our hands, make our hearts diligent and compassionate. Ensure that in every patient we know how to discern the features of your divine Face.

You who are the *Way*, provide us with the gift of knowing how to imitate you every day as medical doctors not only of the body but of the whole person, helping those who are sick to tread with trust their own earthly path until the moment of their encounter with You.

You who are the *Truth*, provide us with the gift of wisdom and science in order to penetrate the mystery of the human person and their transcendent destiny as we draw near to them in order to discover the causes of their maladies and find suitable remedies.

You who are the *Life*, provide us with the gift of preaching and bearing witness to the 'Gospel of life' in our profession, committing ourselves to defending it always, from conception to its natural end, and to respect the dignity of every human being, and especially the dignity of the weakest and the most in need.

Make us O Lord, *Good Samaritans*, ready to welcome, treat, and console those we encounter in our work. Following the example of the holy medical doctors who have preceded us, help us to offer our generous contribution to the constant renewal of health care structures.

Bless our studies and our profession, enlighten our research and our teaching. Lastly, grant to us, having constantly loved and served You in our suffering brethren, that at the end of our earthly pilgrimage we may contemplate your glorious countenance and experience the joy of the encounter with You in your Kingdom of joy and everlasting peace.

Amen.

The Vatican, 29 June 2000

John Paul II.
